Hi Chris,

Kent responded directly to this comment. I forwarded it to the WH&B team due to those comments, but thought you might like to see it too.

Thank you for your email, and for your concern regarding the management of our public lands. While the issues that you specifically brought up are currently being reviewed by our executive and congressional leadership, we at the state level are committed to working with our partners, key stakeholders, and the public, to address and resolve issues important to the communities that we serve.

I have forwarded your concerns to the appropriate staff within BLM Utah for their awareness as well.

Thank you again for your email.

Dear Mr. Hoffman,

I wanted to send you a quick note for the record in regards to Bears Ears Monument.

I oppose the recommendation to reduce Bears Ears-I know that the majority of people commenting on several facebook pages-including Rep. Chris Stewarts and Zinkes page-oppose this blatant and unprecedented act.

There have also been many petitions online with thousands of signatures opposing reducing

Bears Ears and other monuments.

There will be lawsuits and courts should honor these PUBLIC lands and help protect them! Bears Ears and other monuments, parks are for the PEOPLE and NOT for sale to ANY industry! They are to be left ALONE and PRESERVED for future generations!

I also want to express my opposition to ANY roundup and slaughter of ANY of the wild horses or burros-they should be allowed to roam freely as they have for centuries.

Ranchers and their evasive cattle should move their cattle and reduce their use of lands horses and burros roam.

Contraceptives should be used as management-NOT slaughter!!!

The majority of Americans want Monuments, Parks, and the wildlife that call them home protected and left ALONE!!!!

Lethal methods should NOT be used- horses, burros are part of our heritage and need to be honored!

I could write more, but my time is limited.

As one of the the MAJORITY-I OPPOSE reducing Bears Ears OR any monument or park and I do NOT want horses of burros rounded up by BLM and shipped to slaughter or kept in holding pens either!

Thank-you,

Lisa Scharin
